Smoothest, quietest hydraulic drive on the market

With more standard features than any other elevator available, the Symmetry Hydraulic drive is the industry leader. We offer as standard: battery lowering, digital position indicators on the COP and hall stations, custom wood sill, and LED lighting. Our custom options also lead the industry.

Standard Features:

- Travel: Maximum of 50' (minimum 12" between stops)
- Speed: 40 FPM
- Load Capacity: 950#
- * **Overhead: Minimum of 8' (96")**
- Pit depth: 6" minimum (8" preferred)
- Two stops
- Single opening
- Three year limited parts warranty

Mechanical Equipment:

- Modular 6 $\frac{1}{4}$ " # T-rail structure
- Car frame assembly
- 208/230 VAC, 60Hz, 30 amp single phase power supply for motor controller
- 120 VAC, 60 Hz, 15 amp single phase power supply for lighting
- (2) $\frac{3}{8}$ " 7x19 galvanized aircraft cable (14400# breaking strength) with wedge rope shackles
- 80mm diameter piston/102mm diameter cylinder incl. 1" - $\frac{3}{4}$ " reducer bushing
- 208/230, 3HP submersed motor with 2-speed valve assembly (1750RPM, 17 FL Amps) - Manual down valve for emergency lowering
- Screw pump (300 micron screen)
- Positive pressure switch
- * **Code compliant electrical disconnects included**

Safety Features:

- Slack rope safety device
- Motor controller supply (located in controller)
- Car light supply (located in controller)
- Rupture valve (Type "C" Safety)
- Pit stop switch
- Car top stop switch
- In-car emergency stop switch and alarm
- Safety switch for car gate(s)
- Battery back up emergency car lights and alarm
- Electromechanical hoistway door interlocks (doors by others)
- * **Non proprietary controller - designed for long term serviceability**

Controls:

- Programmable Logic Controller (PLC)
- Non-selective collective automatic operation
- * **S.M.A.R.T. system (Self-Monitoring Alert Response Technology)**
- Car Operating Panel (COP) available in multiple finishes with LED floor position indicator
- Hall Stations available in multiple finishes with call button and car arrival indicator
- Recessed phone box available in multiple finishes (phone jack included)
- Automatic car lighting
- Single floor designated car homing
- * **Uninterruptible Power Supply (UPS) for car lowering and automatic gate operation (if provided) in the event of power failure**

Car Features:

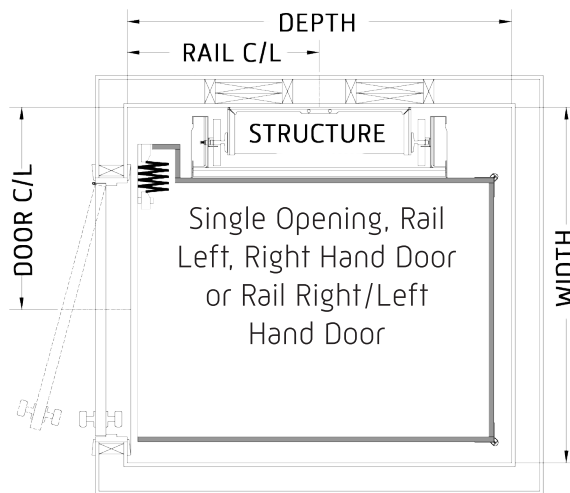

- **Car size up to 15 square feet**
- 7'0" interior car height
- * **Birch, Oak, or Maple flat veneer interior walls with matching ceiling**
- Matching wood handrail
- * **Matching wood car sill**
- Unfinished plywood floor with sill set for .75" (flooring by others)
- * **2 energy saving recessed LED Lights with trim rings**
- 7'0" vinyl laminate accordion gate (light oak, dark oak, white or antique white)

Division 14 Specs: www.div14specs.com - One stop website to view brochures, download specifications, CAD, PDF, and Revit files.

SpeCreator: www.speccreator.us - Custom designed software and specification generator created to easily build division 14 product specifications. The SpeCreator will create your project specific set of CSI 3-part specifications.

Optional Features:

- Up to six stops
- Single automatic push button operation
- **Custom car size up to 18 square feet**
- Custom car heights
- Recessed panel car with flush ceiling
- Recessed panel car with matching ceiling
- Raised panel car with matching ceiling
- * **4 recessed LED lights with fixture matching trim rings**
- Factory finished car
- Polished stainless steel, polished brass, brushed nickel, vintage bronze and oil rubbed brass fixtures (including COP, phone box, hall calls, and handrail)
- * **COP with integrated phone box**
- Custom wood interiors
- * **Custom factory finishes (antiqued, distressed, & crackle)**
- * **Green material alternatives and finishes for car interiors**
- Scissor gate
- Hardwood veneer accordion gate
- Clear panel accordion gate
- Autogate operator (available for use with accordion gate only)
- .75" finished or unfinished factory installed hardwood car flooring
- Factory flooring insert for $\frac{1}{4}$ " (flooring by others)
- Buffer springs (requires minimum of 10" pit depth)
- Key switch for COP and hall stations
- 750# car capacity
- * **This symbol denotes exclusive features**
- * **May require local code authority approval**
