Convenient access to all levels

Whether it's commercial or residential use, outdoor or indoors, Symmetry Vertical Platform Lifts eliminate the barrier that stairs can cause for people with limited mobility.

The Symmetry Hybrid looks and feels like an elevator, but operates like a lift. Available in many different sizes and configurations, features include a full height cab, non-load bearing ceiling, and a wide variety of optional features and finishes. Customize the doors and cab to match the style and décor of your commercial facility or home.

The entire Symmetry VPL Product Line is designed around ADA 4.11 compliance and public and private accessibility.

Standard Features

- 750 – 1,000 pound capacity
- Speed: 30 FPM
- Lifting height: Up to 168"
- A.W.A.R.E. system (Active Wiring, Accessories, Relay, and Electronics Diagnosis)*
- Constant pressure up/down control switch installed on the platform
- Constant pressure, elevator-style, hall control station provided at each landing
- Roped Hydraulic Drive System with Submersed Power Unit
- Pit depth: 6" minimum (8" preferred)
- Top landing ceiling overhead: 96" minimum
- Automatic cab lighting
- Emergency lights

Optional Features

- Wide variety of custom fixtures and interior designs
- Remote mounted controller and hydraulic pump
- ADA phone for both indoor and outdoor models
- Key switch to lock platform and landing controls

Safety Features

- Alarm and emergency stop switch
- Grab rail
- Landing interlocks keep doors closed/locked when the platform is at another landing
- Uninterruptible Power Supply (UPS) for car lowering and automatic gate operation (if provided) in the event of power failure
- Manual lowering
- Rupture valve (Type "C" Safety)
